EXPERIENCE

Principal Consultant, Swainston Consulting Group, Providing consulting and expert services to public and private owners, design professionals, contractors, and attorneys on a variety of projects ranging from hundreds of thousands to hundreds of millions of dollars. Expert testimony and certifications regarding slip, trip, and fall claims and building code analysis relating to premises liability. Some emphasis on local and state government relations. (Formerly Project Management Consulting)

Managing Consultant, Thomas Anderson & Co., 1539 Little Dove Court, Henderson Nevada 89014. September 1995 to October 1998. Providing consulting and expert services to public and private owners, design professionals, contractors, attorneys, and insurance carriers on a variety of projects including jobsite and premises safety evaluations and expert testimony related to applicable codes and ordinances.

Principal, Project Management Consulting a.k.a. Swainston Consulting Group, 1539 Little Dove Court, Henderson, Nevada 89014. January 1992 to present. Providing consulting and expert services to public and private owners, design professionals, contractors, insurance carriers and attorneys on a variety of projects ranging from hundreds of thousands to hundreds of millions of dollars, some emphasis on local and state government relations. Expert testimony and certifications regarding slip, trip, and fall claims and building code analysis relating to premises liability.

Project Manager, High-Point, 1050 East Flamingo Road Ste., N-337, Las Vegas, Nevada 89119. January 1994 to June 1995. Construction related consulting for project management and litigation support on both public and private projects of all sizes. Clients included owners, contractors, design professionals, attorneys, sureties, insurance carriers, and lending institutions. Work during this time included comprehensive project management for capital improvements for the Chloride School District in Arizona and construction control services on the Phase 1 of the Hard Rock Hotel project. Many assignments related to jobsite and premises safety and liability. Offered testimony regarding code compliance, lighting, and safety.

Production Manager, Green Valley Electric, 714 W. Sunset Road, Henderson, Nevada 89015. March 1993 to January 1994. Part time. Responsible for contract administration, management systems and oversight of company policies and procedures including jobsite safety. Projects were primarily industrial and commercial with some emphasis on process controls including water and wastewater.

Director, Construction Management, Clark County School District, 2832 East Flamingo Road, Las Vegas, Nevada 89121. December 1989 to January 1992.

- Established a new Department to manage to the contract administration, design, construction and inspection of capital improvements valued at approximately $\frac{3}{4}$ billion dollars.
- Set up and implemented an extremely successful program for claims avoidance and resolution.
- Compressed a ten-year capital improvement program into five years with favorable impact on budgets.
- Directed the design and construction of over 50 new schools, 26 major additions, and several large support facilities.

Assistant Director, Engineering & Construction, Clark County School District 2832 East Flamingo Road, Las Vegas, Nevada 89121. December 1988 to December 1989.

- Organized a system for the design, construction, code compliance inspection, and contract administration of all capital improvements for the district.
- Completed over 65 million dollars worth of new facilities ahead of schedule with cost savings that allowed for the construction of an additional new school.
- Managed an in-house work force of over 70 employees and handled contract administration for dozens of design professionals and outside consultants.

- Responsible for Building Code Enforcement – served as Certified Building Official for Class A Building Department. Offered testimony regarding premises liability cases regarding District properties.

Coordinator, Architectural & Fire Retrofit, Clark County School District, 2832 East Flamingo Road, Las Vegas, Nevada 89121. March 1985 to December 1988.

- Set up and successfully carried out a multi-million dollar life safety retrofit program involving over 100 separate facilities.
- Implemented a computer based drafting network.
- Established constructability review and value engineering programs.
- Certified as a Building Official and was responsible for Plans Check and Building Code Interpretation and Enforcement including life safety and accessibility.
- Established standards for all contract documents and published a comprehensive procedures manual.

Project Coordinator, Atlandia Design, (Mirage Resorts), 3260 Industrial Road, Las Vegas, Nevada 89109. June 1983 to March 1985.

- Completed over 50 million dollars in new construction, along with extensive retrofit and remodel of existing facilities. Work included a new high-rise tower and major renovation and remodel work on two existing towers.
- Met extraordinary scheduling and logistical challenges without disrupting ongoing operations. Responsible for all aspects of safety relating to facility design and construction.

Teaching Assistant, Brigham Young University, School of Engineering, Industrial Education Department, Provo, Utah 84601. September 1982 to April 1983.
